ABOUT US

The Safety Practice was established in 2003. It has grown to become a reputable and credible provider of safety services within Australia and Abroad.

Based in Sydney, our work extends to South East Asia. The Safety Practice offer expert safety training and consultancy tailored to your organisational needs.

We aim to provide a professional and ethical standard of service through the use of experienced and qualified instructors and consultants.

We can assist your organisation with compliance solutions whilst minimising the risk to employees and your business.

SAFETY: A SERIOUS SUBJECT

Penalties on companies and individuals make it imperative to comply with safety standards applicable to your business. A simple and effective safety system is important. Implementing this system is even more important. Being able to prove you have complied with it is critical.
